

500- Perrins, W. H.

Feb. 11th, 1943.

Captain Kendall K. Hoyt,
Intelligence Officer, Army Air Forces,
Office of Civilian Defense,
Washington, D.C.

Dear Sir:

Thank you for your letter of February 8th. I did not know that you were having a sort of competition on songs for the CAP, but of course I will be very pleased for you to use it if you find that it is what you want. We have about 1000 or more copies similar to the ones I sent you.

I would appreciate it very much if you could hasten the sending of my membership card in the CAP, as I feel very conspicuous drilling in civilian clothes.

I am more than interested in the future of both Civilian and Transport Flying--and with this in view I have purchased a piece of land just south west of here in order to develop runways and warehouse space for cargo planes flying to all parts of the world. I don't know just how this would tie up with the CAP but you can depend upon it that I will lend my whole effort to its development and well being. My new air port will cover two square miles.

Yours truly,

W. H. Perrins
